Combining dance with other curriculum areas is an instructional approach that supports kinesthetic learners to understand and deepen their learning through experiential opportunities. Through dance, learners can experience music and art from different cultures, periods, and techniques. Dance can be used as a tool to teach curriculum, while at the same time stimulating creativity. In addition, dance can promote critical thinking, teach learners to make independent decisions, and build confidence in themselves as well as a positive self-image.

ENGLISH LANGUAGE ARTS

- RL.2.1.: Ask and answer such questions as who, what, where, when, why, and how to demonstrate understanding of key details in a text.
- RL.2.2.: Recount stories, including fables and folktales from diverse cultures, and determine their central message/theme, lesson, or moral.
- RL.2.5: Describe the overall structure of a story, including describing how the beginning introduces the story and the ending concludes the action identifying how each successive part builds on earlier sections.
- RL.2.9.: Compare and contrast two or more versions of the same story (e.g., Cinderella stories) by different authors or from different cultures.

Units 1-3 – Understanding the sequence of events in a story is similar to following the thematic changes in a dance work such as ballet (*The Nutcracker*). Students are also asked to identify the main topic of a multi-paragraph text, which in music is similar to the primary theme of a piece of music. Be able to find information about dance history in a text. Provide opportunities for students to listen for, and speak, read, and write about dance topics including famous dancers, choreographers, and composers.

MUSIC

- 1.3A.2.Cr2a: Demonstrate and explain personal reasons for selecting patterns and ideas for music that represent expressive intent.
- 1.3A.2.Pr5e: Demonstrate understanding of basic expressive qualities (e.g., dynamics, tempo) and how creators use them to convey expressive intent.
- 1.3A.2.Pr6b: Perform appropriately for the audience and purpose.
- 1.3A.2.Re7a: Demonstrate and explain how personal interests and experiences influence musical selection for specific purposes.

1.3A.2.Re7b: Describe how specific music concepts are used to support a specific purpose in music.
 1.3A.2.Re9a: Apply personal and expressive preferences in the evaluation of music.
 1.3A.2.Cn10a: Demonstrate how interests, knowledge and skills relate to personal choices and intent when creating, performing and responding to music. This Performance Expectation is embedded in the following Artistic Processes: 1.3A.2.Cr2a, 1.3A.2.Cr3b, 1.3A.2.Pr5e, 1.3A.2.Re7a.
 1.3A.2.Cn11a: Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts, and daily life. This Performance Expectation is embedded in the following Artistic Processes: 1.3A.2.Cr2a, 1.3A.2.Cr3b, 1.3A.2.Pr5e, 1.3A.2.Re7a.
 Ex: Dance and music are directly related. The musical genre, rhythm, dynamics, tempo, and form all inform choices in movement for dance. Being able to recognize these elements in music will make for a more effective and polished dance performance.

THEATRE

1.4.2.Cr1a: Propose potential character choices and plot details in a guided drama experience (e.g., process drama, story drama, creative drama).
 Ex: Dance can tell a story just as a play and can also incorporate many character choices. Students will use characters to inform their movement and expression in dance.

SOCIAL STUDIES-U.S. History: America in the World by the End of Grade 2:

6.1.2.CivicsPD.1 Engage in discussions effectively by asking questions, considering facts, listening to the ideas of others, and sharing opinions.
 6.1.2.CivicsPR.3 Analyze classroom rules and routines and describe how they are designed to benefit the common good.
 Ex: Evaluating the arts can be very subjective. Students must consider the performing requirements for technical accuracy and also their opinions in regards to its impact and personal preferences. Following rules in the arts is extremely important in being able to have effective collaboration as an ensemble.

INTERCULTURAL STATEMENTS (Amistad, Holocaust, LGBT, SEL)

Demonstrate an awareness of the differences among individuals, groups and others' cultural backgrounds
 Demonstrate an understanding of the need for mutual respect when viewpoints differ.
 Present culturally diverse musical genres.
Ex: Through all dance units, present music of varying cultures, time periods, countries, religions, economic classes, etc. Use dance to introduce concepts relating to rhythm, literacy, history, and expression through dance.

Programs can be broken down into smaller parts to facilitate their design, implementation, and review.
 Societal needs and wants determine which new tools are developed to address real-world problems.
 A new tool may have favorable or unfavorable results as well as both positive and negative effects on society. Technology spurs new businesses and careers.
 Technology innovation and improvement may be influenced by a variety of factors.
 Technological choices and opportunities vary due to factors such as differences in economic resources, location, and cultural values.

UNITS 1-3

*Key points to discuss relating dance and technology are the influence of technology on modern music especially in regards to recording and styles of music created after electronic music.

Appendix C

Interdisciplinary Connections

Grades 3-5

Combining dance with other curriculum areas is an instructional approach that supports kinesthetic learners to understand and deepen their learning through experiential opportunities. Through dance, learners can experience music and art from different cultures, periods, and techniques. Dance can be used as a tool to teach curriculum, while at the same time stimulating creativity. In addition, dance can promote critical thinking, teach learners to make independent decisions, and build confidence in themselves as well as a positive self-image.

English Language Arts

RL.5.2. Determine the key details in a story, drama or poem to identify the theme and to summarize the text.

RL.5.4. Determine the meaning of words and phrases as they are used in a text, including figurative language such as metaphors and similes.

RL.5.5. Explain how a series of chapters, scenes, or stanzas fits together to provide the overall structure of a particular story, drama, or poem.

RL.5.7. Analyze how visual and multimedia elements contribute to the meaning, tone, or beauty of a text (e.g., graphic novel, multimedia presentation of fiction, folktale, myth, poem).

Units 1-3 – Understanding the sequence of events in a story is similar to following the thematic changes in a dance work such as ballet (*The Nutcracker*). Students are also asked to identify the main topic and themes, which in music is similar to the primary theme of a piece of music. Be able to find information about dance history in a text. Provide opportunities for students to listen for, and speak, read, and write about dance topics including famous dancers, choreographers, and composers.

MUSIC

1.3A.5.Cr2a: Demonstrate developed musical ideas for improvisations, arrangements or compositions to express intent. Explain connection to purpose and context.

1.3A.5.Pr4b: Demonstrate an understanding of the structure and expanded music concepts (e.g., rhythm, pitch, form, harmony) in music selected for performance.

1.3A.5.Pr4d: Explain how context (e.g., personal, social, cultural, historical) informs performances.

1.3A.5.Pr4e: Convey creator's intents through the performers' interpretive decisions of expanded expressive qualities (e.g., dynamics, tempo, timbre, articulation/style).

1.3A.5.Pr6b: Demonstrate performance decorum and audience etiquette appropriate for the context, venue, genre, and style.

1.3A.5.Re7b: Demonstrate and explain, citing evidence, how responses to music are informed by the structure, the use of the elements of music, and context (i.e., social, cultural, historical).

1.3A.5.Re9a: Demonstrate and explain how the expressive qualities (e.g., dynamics, tempo, timbre, articulation) are used in performers' and personal interpretations to reflect expressive intent.

1.3A.5.Cn10a: Demonstrate how interests, knowledge, and skills related to personal choices and intent when creating, performing, and responding to music. This Performance Expectation is embedded in the following Artistic Processes: 1.3A.5.Cr2a, 1.3A.5.Cr3b, 1.3A.5.Pr4e, 1.3A.5.Re7a.

1.3A.5.Cn11a: Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts, and daily life. This Performance Expectation is embedded in the following Artistic Processes: 1.3A.5.Cr2a, 1.3A.5.Cr3b, 1.3A.5.Pr4e, 1.3A.5.Re7a.

Ex: Dance and music are directly related. The musical genre, rhythm, dynamics, tempo, and form all inform choices in movement for dance. Being able to recognize these elements in music will make for a more effective and polished dance performance.

THEATRE

1.4.5.Cr1a: Create roles, imagined worlds and improvised stories in a drama/theatre work articulating the physical qualities of characters, visual details of imagined worlds, and given circumstances, of improvised stories in a drama/theatre work.

1.4.5.Pr6a: Practice drama/theatre work and share reflections individually and in small groups, and informally with an audience.

Ex: Dance can tell a story just as a play and can also incorporate many character choices. Students will use characters to inform their movement and expression in dance.

US HISTORY

6.1.5. CivicsCM.3 Identify the types of behaviors that promote collaboration and problem solving with others who have different perspectives

Ex: Evaluating the arts can be very subjective. Students must consider the performing requirements for technical accuracy and also their opinions in regards to its impact and personal preferences. Following rules in the arts is extremely important in being able to have effective collaboration as an ensemble.

INTERCULTURAL STATEMENTS (Amistad, Holocaust, LGBT, SEL)

Demonstrate an awareness of the differences among individuals, groups and others' cultural backgrounds

Demonstrate an understanding of the need for mutual respect when viewpoints differ.

Present culturally diverse musical genres.

Ex: Through all dance units, present music of varying cultures, time periods, countries, religions, economic classes, etc. Use dance to introduce concepts relating to rhythm, literacy, history, and expression through dance.

Standards

9.2.5.CAP.1 Evaluate personal likes and dislikes and identify careers that might be suited to personal likes.

9.1.2.CAP.1: Make a list of different types of jobs and describe the skills associated with each job.

9.2.5.CAP.2: Identify how you might like to earn an income.

9.2.5.CAP.3: Identify qualifications needed to pursue traditional and non-traditional careers and occupations.

9.2.5.CAP.4: Explain the reasons why some jobs and careers require specific training, skills, and certification (e.g., life guards, child care, medicine, education) and examples of these requirements

The career education standards addressed in the music curriculum outline the importance of being knowledgeable about one's interests and talents, and being well informed about postsecondary career options, planning, and career requirements.

CORE IDEAS:

- An individual's passions, aptitude and skills can affect his/her employment and earning potential.
- Income and benefits can vary depending on the employer and type of job/career.
- Individuals can choose to accept inevitable risk or take steps to protect themselves by avoiding or reducing risk.
- The ability to solve problems effectively begins with gathering data, seeking resources, and applying critical thinking skills.
- Different types of jobs require different knowledge and skills.
- An individual's passions, aptitude and skills can affect his/her employment and earning potential.

Technology interacts with society, sometimes bringing about changes in a society's economy, politics, and culture, and often leading to the creation of new needs and wants. New needs and wants may create strains on local economies and workforces. Improvements in technology are intended to make the completion of tasks easier, safer, and/or more efficient. Technology advances through the processes of innovation and invention which relies upon the imaginative and inventive nature of people. Sometimes a technology developed for one purpose is adapted to serve other purposes</p>

Technological disparities have consequences for public health and prosperity.

Combining dance with other curriculum areas is an instructional approach that supports kinesthetic learners to understand and deepen their learning through experiential opportunities. Through dance, learners can experience music and art from different cultures, periods, and techniques. Dance can be used as a tool to teach curriculum, while at the same time stimulating creativity. In addition, dance can promote critical thinking, teach learners to make independent decisions, and build confidence in themselves as well as a positive self-image.
